This is done in accordance with the requirements of water related policies and legislation which are critical delivering on the right of access to sufficient food and water, transforming the economy and eradicating poverty.

The business of the Department is informed by the following key legislative frameworks:

- **The Constitution of the Republic of South Africa**

The Constitution sets out water resources management as a national competency. It also states that everyone has a right to an environment that is not harmful to their health or well-being and supports socially justifiable economic development.

The Constitution indicates the rights of individual to have access to basic water and sanitation and sets out the institutional framework for the provision of these services. It gives municipalities the executive authority and the right to administer the provision of water services within their areas of jurisdiction. The Constitution gives national and provincial government authority to regulate local government in terms of water services. It further gives them the obligation to support and strengthen the capacity of local government to provide services.

- **The National Water Act, 1998 ( Act No. 36 of 1998)**

The National Water Act seeks to ensure that the country's water resources are protected, used, developed, conserved, managed, and controlled in a sustainable and equitable manner for the benefit of all people. This Act assigns the national government as the trustee of the water resources. Acting through the Minister, it has the power to regulate allocation, use, flow and control of all water in the Republic.

- **The Water Services Act, 1997 (Act No. 108 of 1997)**

The Water Services Act prescribes the legislative duty of municipalities as water service authorities to supply water and sanitation according to national norms and standards. In addition, it regulates Water Boards as important water service providers. This Act compels the Minister to maintain a National Water Service Information System and to monitor the performance of all water services institutions.

Currently, the provision of sanitation is governed by the Strategic Framework on Water Services (2003) and the Water Services Act. The Department's mandate is to develop Settlements on the other hand drives the sanitation policy review process which will result in the clarification of roles and responsibilities regarding sanitation.

- **Water Research Act, 1971 (Act No. 34 of 1971)**
